

Stats for Sociologists

Course: SOC6302H1F

Instructor: Professor Pepin

Date: October 21, 2025

Form Code: A

INSTRUCTIONS:

Fill out the first page of the scantron. Confirm you have included:

- The form code (A or B)
- Your student number (write the number and fill in the ovals)
- Your surname and first initial (write the letters and fill in the ovals)

1. The level of measurement for the `hapmar` variable is _____.
 [1] "Happiness of marriage" [1] "very happy" "pretty happy" "not too happy"
 (a) nominal
 (b) ordinal
 (c) interval
 (d) dichotomous
2. Which function is used to load a package in R?
 (a) `library()`
 (b) `install.packages()`
 (c) `load()`
 (d) `source()`
3. What will happen if you try to use a function from a package that hasn't been loaded?
 (a) R will prompt you to install the package
 (b) R will automatically load the package
 (c) The function will run normally
 (d) You will get an error saying the function is not found
4. Which command installs a new package in R?
 (a) `load()`
 (b) `library()`
 (c) `install.packages()`
 (d) `require()`
